Breaks in Between Frames:

Captains and Players are reminded that they should be ready to play the next frame once the referee has set the table for the start of the next frame

This means that a player would have about a 3 minute break from the end of the frame until the start of the next frame

Mobile Phones:

Players should put their phones on silent when playing and unless there is an emergency call not answer a call during a frame and definitely not start a conversation on their phone while the other player is addressing the table
